DEVELOPMENT EXPERIENCE

Skintric AI x Frontend Simplified | Remote | Sep 2026

Frontend Developer Intern

- Built and deployed a Next.js and TypeScript AI image-analysis application with 4 user-facing workflows - camera capture, image upload, validation, and interactive results - enabling users to complete a responsive end-to-end analysis flow.
- Translated Figma specifications into reusable components and integrated REST APIs and JSON data flows, improving interface consistency and simplifying future maintenance; earned mentor approval.

Frontend Simplified Institute | Remote | Jan 2026 - Present

Software Engineering Program

- Develop responsive React and Next.js applications using JavaScript, TypeScript, reusable components, routing, REST APIs, Git/GitHub, and Jest to create reliable end-user workflows.

SELECTED PROJECTS

Skintric AI | Next.js | TypeScript | REST APIs | Figma | Vercel

- Delivered a mobile-responsive image capture and upload experience with browser camera access, validated inputs, API integration, and interactive demographic results.

React Movie Application | React | JavaScript | OMDb API | React Router | Vite

- Built search and routed detail pages that present 6 initial movie results; added loading states, poster fallbacks, and responsive layouts so users can browse reliably across devices and incomplete API data.

NFT Marketplace Features | React | JavaScript | React Slick | REST APIs

- Delivered 2 reusable API-driven carousel modules for collections and new items, adding skeleton loaders, countdown timers, and responsive interactions to improve content discovery and perceived loading speed.
