DEVELOPMENT EXPERIENCE

Skinstric AI x Frontend Simplified | Remote | Sep 2026

Frontend Developer Intern

- Built and deployed a Next.js/TypeScript AI image-analysis application from Figma designs, integrating REST APIs, JSON data flows, browser camera/selfie functionality, validation, and interactive demographic results.
- Used Git/GitHub and modern frontend workflows to implement, test, refine, and deploy the application; project received mentor approval.

Frontend Simplified Institute | Remote | Jan 2026 - Present

Software Engineering Program

- Build responsive React/Next.js applications using JavaScript/TypeScript, REST APIs, routing, reusable components, Git/GitHub, Jest, and modern frontend development workflows.
- Completed project work involving API-driven movie search/details, interactive UI state, loading/skeleton states, responsive layouts, and component-based interfaces.

SELECTED PROJECTS

Skinstric AI | Next.js | TypeScript | REST APIs

- Deployed AI-focused web application with image capture/upload workflows, API integration, input validation, and interactive results.

React Movie Application | React | JavaScript | REST API | React Router

- Built a responsive movie search application with API-driven results, routed detail pages, loading states, poster fallbacks, and mobile layouts.

NFT Marketplace Internship Features | React | JavaScript | APIs

- Implemented API-driven collection and new-item carousels with loading skeletons, countdown timers, responsive UI behavior, and interactive states.
